

Schools provided with security fencing and schools scheduled for a security fence

Reports and statistics

Since 1995, security fences have been installed in 505 schools at a cost of more than \$42 million (as at 1 June 2007).

Schools that have been provided with security fencing report significant reductions in the incidences of break and enter and vandalism. Although security fencing is effective, it must be part of an overall security plan.

This may include security guard patrols, electronic surveillance and security alarms, lockdown devices designed for computers and other equipment, and security grills on windows and doors.

The Government has also contracted 24 hour per day mobile guard patrol services in identified high risk areas and during holidays.
